The Fund has determined that all of the distributions listed below that were paid during the Fund's taxable year ended November 30, 2011 are classified as non-dividend distributions:

<u>Month</u>	<u>Ex-Date</u>	<u>Record Date</u>	<u>Payable Date</u>	<u>Distribution Per Share</u>
February	02/16/2011	02/18/2011	02/25/2011	\$0.3500
May	05/18/2011	05/20/2011	05/27/2011	\$0.3550
August	08/17/2011	08/19/2011	08/26/2011	\$0.3550
November	11/16/2011	11/18/2011	11/25/2011	\$0.3650

A non-dividend distribution is a distribution that is not paid out of the earnings and profits of the Fund. This nontaxable distribution is also called a return of capital and is a return of your investment in the Fund. Shareholders who received these distributions should not include these amounts in taxable income for their respective taxable year, but instead pursuant to Internal Revenue Code Section 1016(a), should treat them as a reduction of the cost basis of the applicable shares upon which these distributions were paid. In order to compute the required adjustment to cost basis, a shareholder should multiply the per share amount of each of the respective distributions by the number of shares held at each of the respective ex-dates listed above and subtract that amount from the original purchase price or other adjusted cost basis of those shares.

If the shareholder has not sold or otherwise disposed of any shares during their current taxable year, the information computed by the shareholder regarding the appropriate reduction in cost basis should be maintained in the shareholder's records until such time as the shareholder sells or otherwise disposes of such shares. If the shareholder has sold or otherwise disposed of any shares during their current taxable year, the shareholder should increase the recognized gain or decrease the recognized loss on the shares sold by the required adjustment to cost basis computed with respect to such shares.
